WELCOME WORDS TO WOMEN.

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free advice of a physician of over forty years' experience—a skilful and successful specialist in the diseases of women. Every letter has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment cures in the privacy of your home. His "Favorite Prescription" has cured hundreds of thousands of bad cases. It is the only medicine of its kind that is the product of a regularly graduated physician. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to Dr. R. V. Pierce, Buffalo, N. Y.,—take his advice and be well.

Mrs. R. D. Monfort, of Lebanon, Warren Co., O., writes: "I have received the 'Medical Adviser.' crisp, new five dollar bill could not tempt me to part with it."

On receipt of 21 one-cent stamps, to pay cost of mailing *only*, we will send to any address a paper-bound copy of Dr. Pierce's great 1000-page book, "The Common Sense Medical Adviser." Or, for 31 stamps the same in cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

Pierce's Pleasant Pellets. The Original LITTLE LIVER PILLS, first put up by old Dr. R. V. Pierce over 40 years ago. Much imitated, but never equaled. Little pill, Little dose, but give great results in a curative way in all derangements of Stomach, Liver and Bowels.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Cannibals

and savages may delight in seeing SUFFERING, but the highest thought of civilization is to relieve all pain. This can quickly be done with HAMLINS WIZARD OIL.

For internal and external curative action, it has no equal in the entire medical world. It relieves the inflammation which is irritating your nerves, regulates the circulation of the small blood vessels, and, by scientific means, gently but certainly restores your body to health.

You can't be sick, if you ward off the preliminary action of disease microbes, with this greatest of all medicines of modern times. Price 50c and $1.00. Fully guaranteed.

A FINANCIAL SENSATION.

The political, social, financial and religious sensation of many decades in Pittsburg, Pa., was precipitated yesterday by the suicide of T. Lee Clarke, cashier of the Enterprise National Bank of Allegheny.

On the heels of the suicide, which was accomplished by poison and pistol, the Enterprise Bank was taken in charge by the United States bank examiner and a woeful state of affairs brought to light.

Evidently knowing that the Enterprise Bank was on its last financial legs, caused largely by the machinations of the republican State political machine, realizing that nothing but disgrace faced the institution, into which hundreds of innocent people and a dozen or more prominent State politicians would be dragged, Cashier Clarke, who was also an elder in the United Presbyterian Church, of Bellevue, shot himself through the head at his home in Bellevue yesterday morning and died at his home yesterday afternoon.

Five hours after the shooting, and while the cashier was breathing his last, the doors of the bank, one of the oldest and considered one of the most reliable in Allegheny county, were closed by order of the Comptroller of the Currency at Washington. It was the first scene of the most remarkable political sensation than has ever stirred Pennsylvania, and in which the deplorable conditions in the State treasury were laid bare.

The closing of the bank follows quickly after the charges made against it by Homer L. Castle, probibiting candidate for Superior Court judge, who alleged that the bank was carrying practically worthless stocks which had been deposited by State politicians for personal loans.

Last week Banking Commissioner John A. Berkey, of Somerset, and John W. Morrison, one of his deputies, visited the bank. They knew the condition of the bank. On Tuesday, in a desperate effort to save the bank from ruin, State Treasurer Mathien sent an additional deposit of State funds, amounting to $50,000, which made the total amount of State funds in the bank $782,000. The fact was admitted yesterday afternoon after the suicide and the closing of the bank by Frederick Gwinner, the aged president. He wrung his hands as he made this admission. "This will break up the republican party in the State of Pennsylvania."

It is conceded by all that the expose deals one of the hardest blows ever suffered by the republicans of Pennsylvania.

Francis J. Torrance, head of the Standard Manufacturing Company and one of the leading republicans of Pennsylvania, has been closely identified with the workings of the bank now in the hands of a receiver, and he is lying at the point of death. Clarke, the cashier, now dead, with W. R. Andrews, formerly of Pittsburg, now Territorial Delegate of New Mexico at Washington, and former State Senator Arthur Kennedy had, it appears, been in several large deals. One of them was the selling of railroad property to the Santa Fe road. The option, which, if closed, meant a fortune to each of those named, was not taken up by the Santa Fe people on Saturday, but was allowed to expire.

The Enterprise Bank, it appears, had backed this deal heavily, and when it did not go through there was a scurrying. Cashier Clarke, who has for years been considered one of the most conscientious men in Allegheny county, a shining light and elder in the United Presbyterian Church, of Bellevue, appears to have smelled ruin.

The bank had been carrying according to the best information received, about $700,000 in paper of Pennsylvania politicians. Among this was $200,000 for Andrews and others on the Santa Fe deal. On Tuesday evening Cashier Clark went to the bank, where he remained over his books till long after midnight.

About 9 o'clock President Gwinner, of the Enterprise Bank, dropped in to see him. He asked if anything was wrong; if he could do anything.

"I'll give you $100,000, Mr. Clarke, if you need it for a time," said the old president. "I am afraid all is not well here."

"Thank you, Mr. Gwinner, but the bank is all right and I am all right," said Elder Clarke, as he bowed the old president out.

Two hours later Clarke went home, and rising early yesterday morning took a dose of laudanum, but it was not of sufficient size to kill him. He persuaded his family that it had been a mistake and, drinking a cup of coffee, ordered his carriage brought to the door, in order that he might not be late at the bank. He kissed his wife and four children good-by, and with a song on his lips went out on the back porch of his $300,000 home, and there, pulling a revolver, shot himself through the head, falling unconscious on the floor. He was carried into his house, where he died at 3 o'clock yesterday afternoon.

Frightful Suffering Relieved

Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson, of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25c at E. S. Leadbeater & Sons, druggists, guaranteed.

Filipino Wife Gets Divorce.

The divocre suit of Conception Vasquez, the Filipino woman, against First Lieutenant Sidney S. Burbank, Sixth Infantry, which has attracted much attention in the army, has been decided in favor of Mrs. Burbank. Word reached Fort Leavenworth yesterday that Judge Bates, of the Court of First Instance at Iloilo, P. I., had granted a divorce to Burbank's Filipino wife, had given her the custody of their daughter and allowed her monthly alimony. Mrs. Burbank brought action after Lieutenant Burbank's return to the United States, and after his engagement had been announced to a prominent young Leavenworth woman. The War Department provided counsel for the deserted wife. Lieutenant Burbank is now being tried by court martial at Iloilo on charges growing out of the case that has just been decided.

October.

A rural exchange goes into rapture over the beautiful weather of October and says: "Coon hunting time is on us, wild grapes and chestnuts are in their prime, and the cider barrel is foaming. If ever a dweller in the rural sections should be happy, it is now. October has been abroad for two weeks past in all her glory. She has brought sunshine and moonshine that would rival anything Utopia might offer. All out doors has been a sea of delight. The fellow who can find no joy in this climate and land of plenty would better go to Panama."

Could Not be Better.

The uniform success of Chamberlain's Colic, Cholera and Diarrhoea Remedy has won for it a wide reputation and many people throughout the country will agree with Mr. Chas. W. Mattison, of Milford, Va., who says: "It works like magic, and is the best preparation I know of. It couldn't be any better." He had a serious attack of dysentery and was advised to try a bottle of this remedy, which he did, with the result that immediate relief was obtained. For sale by Gibson & Timberman and W. F. Creighton & Co.

You may be just as skeptical and pessimistic as you please. Kodol will digest what you eat whether you eat or not. It is curing hunereds and thousands—some had faith and some didn't. Kodol will cure you if medicine can cure you, whether you have faith in it or not. Sold by W. F. Creighton, & Co. 401 King street.

AND VIRGINIA ADVERTISER

THURSDAY EVENING. OCT. 19, 1905.

PRESIDENT ROOSEVELT yesterday commenced his "triumphal" march through the South and is being hailed with acclaim at every town and city through which he passes. The Richmond papers say the grandest ovation tendered an American citizen within the lifetime of the present generation in that city was that accorded him in the Capitol Square yesterday afternoon, when no less than 25,000 enthusiastic people cheered him as he spoke, and it will be the same all along the line The Booker Washington dinner, the Crum affair and Indianola incident have all been thrust aside and men and women, too, who but a brief year ago were severely criticising Mr. Roosevelt, seem now to be those most anxious to do him honor. He is trampling upon the most sacred traditions of the South, which he made light of naming them as "mere sentiments," and the smarting wounds he has frequently inflicted upon her people seem all to have been not only forgiven, but forgotten by them, and the President has apparently made a comple conquest. Truly the southerners are not only a long suffering but a forgiving and a forgetting people. It may be right and it may be wrong.

THERE is said to be scarcely a coal company in the southern anthracite region in Pennsylvania that is not now working at its full capacity and storing coal. Where yards and storage bins are not available coal is being banked upon cleared pieces of ground near railroads. At some places huge pyramids of coal of domestic sizes rear themselves, and as a labor paper published at Coal Dale remarks, "they are the intrenchments the operators have thrown up for a strike next spring." It is estimated by experts that if the coal companies all work their collieries full time they will be able to store, with what they now have on hand, about 25,000,000 tons of coal before next April. While the great coal mining corporations are piling the coal, the anthracite miners are recruiting their unions with a view to argument over a new arrangement between the corporations and their employes when the present arrangement ends next year. It may turn out that due preparation for a strike may prove an insurance against a strike. The general prosperity in the coal fields will plead strongly against any radical change in present conditions.

THE FINANCIAL crash in Pittsburg, Pa., yesterday, and the suicide of the cashier has naturally caused some excitement, not only in Pittsburg, but throughout Pennsylvania, as well as anxiety in other parts of the country, as it is believed sooner or later such disclosures will precipitate a panic. The failure of the Enterprise Bank at Allegheny and the accompanying tragedy will carry their own comment. The incident is a condemnation more eloquent than any that could be put in words of the baleful effect of the State Treasury of Pennsylvania manipulatiug the public moneys in its keeping. The story of the failure confirms in the most spectacular manner the charges of Homer Castle and Mayor Berry. The institution appears to have been wrecked by the operations of the leading politicians of the State machine, to whom credit was extended on shady securities far in excess of the amount permissible by the banking laws. This appears to have been the consideration which the unfortunate cashier, who took his life when the failure became inevitable; paid for having his bank designated as a State depository.

WHILE Christian churches are spending millions of dollars and missionaries are risking their lives in endeavors to evangelize the Chinese empire, others in this country are acting as procurers for harems for the opulent among the celestials. Two women, it is alleged, are at the head of the traffic. One has her headquarters in Chicago, and the other in Shanghai, These women, it is alleged, first hire unsuspecting girls, tempting them with lurid stories of wealth in the orient. A position of maid or high servant in wealthy Chinese families is said to have been the bait offered. To bind the contract the applicant for the position was told that her traveling and living expenses would be paid and all the clothing necessary furnished. When the women reached China they were immediately placed under guard and sent to the purchasers, who had previously paid from $500 to $1,000 for each. Many are supposed to be held in palaces of wealthy Chinese under heavy guard.

THOSE who are trying to get Congress to pass a ship subsidy bill, whereby the masses would be taxed to put money in the pockets of the shipowners, say that Americans pay $180,000,000 to foreign shipowners. If this is so it should induce the enterprising American shipowners to at least make an effort to secure this trade and money. If foreigners can manage all this American carrying trade at so large a profit certainly the Americans should be able to do so. The foreigners are not out for their health only.

THE HARDEST blow to civil service was struck by the President just before he started on his southern trip, when he issued an order allowing each and every one of his Cabinet officers to discharge at their pleasure employees of the government in their respective departments. This order can have but one general effect and that is the discharge at pleasure of the democrats in office. The whole civil service affair is a humbug from beginning to end and always has been, but so long as there are civil service laws on the statute books they should be observed. The best thing to do with the service is to abolish it.

MRS. MATT BOLDES was killed by her husband in Hawarden, Iowa, a day or two ago for contributing one dollar toward defraying the expenses of a church to which she belonged. This was certainly a case where a house was divided against itself and the wife's enemy was the head of the household. The believing wife is told to dwell with the unbelieving husband and this unfortunate woman was faithful even unto death.

Washington, D. C., Oct. 19.

The annual report of Brigadier General George B Davis, judge advocate general of the army, shows that during the past year 35 commissioned officers were convicted and 13 acquitted by courts-martial; 3 cadets tried and convicted and 4,393 enlisted men convicted and 356 acquitted, making a total of 4,800 trials in the army by general courts-martial. General Davis calls attention to the increase of 551 trials by court-martial over the previous year which, he says, is due to the fact that a large number of deserters have been apprehended and brought to trial. Sixteen commissioned officers were dismissed from the army during the year; and in four cases the sentence of dismissal was commuted. The number of enlisted men sentenced to disbonorable discharge was 2,529. The percentage of enlisted men tried was about 56, and of the men tried about 60 per cent. were tried only once, and about 80 per cent. were tried not more than twice.

Scarcely has the wrath of the conventions of the letter carriers, the rural free delivery carriers, the railway clerks and of the office clerks subsided when Postmaster General Cortelyou shows his hand, undoing the important work of their various conventions. Now the members of the conventions are figuring out if it was worth while to engage in rows which split their organizations into factions when their accomplishment is checkmated in another direction. Every one of the conventions, it is said, drew up resolutions urging Congress to increase the salary of the government's postal employees. In most cases committees were appointed to bring the matter before the proper committees in Congress. Right here is where Postmaster General Cortelyou, chairman of the republican national executive committee, took a hand. He raked up an old order, promulgated when Charles Emory Smith was Postmaster General under McKinley, to the effect that any attempt of employees to secure increase of salaries by appealing direct to Congress would be ground for immediate dismissal. Postal organizations mixing up in politics are not pleasing factors with which to deal. Representative Loud found that out. Postmaster General Cortelyou has had that order sent to every employee in the service. If there is to be a request for additional salaries, he will make it, not the employees or their organizations. Taken with the amendment to the civil service regulations to the effect that the heads of departments can dismiss without trial offenders whose "guilt" is a matter of personal knowledge to the head of the department, the postal employees are thinking theirs is a double potion.

When Governor General Wright leaves the Phillippines for his visit to America —the report has given rise to the story that he will not return to his present duties—he will be accompanied by W. Cameron Forbes, a member of the Philippine Commission. Commissioner Forbes was invited by Secretary Taft to be present in Washington when the bids for railroad construction in the Phillipines are to be opened at the War Department December 15. Mr. Forbes is to make a hurried trip and will be absent from his post less than three months. He is at the head of the bureau which has charge of the commerce of the islands, in which are included the railways, and he thinks it would be well for him to gather all the information available on the subject in the United States. During the absence of General Wright and Commissioner Forbes the Philipine Commission will have but three American members on duty, Messs. Ide, Smith and Worcester, depriving the Americans of the balance of power which they customarily hold. There are three Filipinos on the commission.

District Attorney Baker is making plans for the second trial of William G. Crawford for alleged conspiracy with August W. Machen and Dr. George E. Lorenz to defraud the government in the purchase of letter carriers' satchels and shoulder straps. The trial will probably commence next month. At the first trial the jury failed to agree in Crawford's case, after August W. Machen had pleaded guilty and Dr. Lorenz had turned government witness.

Secretary of State Root is doing all that he can to assist in bringing about a settlement of the differences between the French and Venezuelan governments, growing out of the refusal of the latter to longer maintain diplomatic relations with M. Taiguy, the French charge d'affaires in Caracas. In official circles here it is thought that a pacific adjustment will be reached.

Careful reading of the President's speech, delivered at Raleigh today, on subject of railroad rate legislation, reveals the fact that he has to some extent accepted the advice of certain leaders of the Senate. His previously expressed views as to the methods to be employed in correcting the evils now complained of have been modified so that prediction seems warranted that he will obtain the support of many who have opposed his plans hitherto—even of Senator Foraker. It will be noted that the President does not insist on the rate regulating power being conferred upon the Interstate Commerce Commission. He would provide for an "administrative body" —whether it be the Interstate Commission, or some other. It was against the power being given to the commission as now constituted that Senator Foraker originally contended. The Ohio statesmen, and his followers, also object to giving final jurisdiction in the matter of fixing rates to either the Interstate Commerce Commission or any other body of men. President Roosevelt's Raleigh utterances make it plain that he would expect the findings of the railroad rate making body to be the subject of review by the courts. He would have the maximum rate fixed in any given instance go into effect at once, or "within a reasonable time" and "stay in effect, unless reversed by the courts." The only enlarged powers he insists upon confering on the Interstate Commerce Commission are those relating to the books and accounts of offending railroads. He would give the commission authority to make exhaustive investigation of receipts and expenditures in order that any evasion or violation of the law might be detected, and would have the commission prescribe what manner of books should be kept by the railroads. If his Raleigh speech covers the recommendations which the President expects to make to Congress on the railroad question in December, it is believed here that his plans will have much smoother sailing that has generally been predicted.

Alarmed at the decrease of British influences in Australia, Great Britain is sending special agents to that country to investigate conditions and report upon them. One agent has reported that the decline is due to a want of readiness on the part of British manufacturers to introduce modifications, in regard to the goods supplied, in accordance with the wishes of the people of Australia. The disposition and policy of competing foreign manufacturers are conspicuously the reverse.

Word has been received here of the marriage at Hong Kong of Col. Wallace A. Taylor, assistant chief of the Philipine constabulary, who chose as his life partner the sweetheart of his boyhood days. Col. Taylor achieved fame in an engagement with the pulajanes in Samar last May, when he was shot in the jaw and neck. He came to the States on leave not long ago and the old attachment for Miss Maud Miller, with whom he graduated from the Omaha High School in 1892, revived. He returned to the Phillipines and was later followed by Miss Miller, the wedding taking place in Hong Kong.

The Panama Canal Commission is much exercised over the advance publication that a majority of the members of the Board of consulting engineers had returned from Panama strongly in favor of a lock canal. There is no question that this is the position of a majority of the members of the board, but the canal commission did not desire that this fact be known until the board had taken a formal vote on the matter. The press agent of the commission this morning obtained from General Davis, Chairman of the board, the following statement which he made public; "So far as I am aware neither the board nor any individual member of it has expressed any opinion as to type of canal that is favored: The board is now in possession of all the facts bearing upon the question of type. It returns to this city entirely free from any prejudice or bias respecting that the type so far as is known to me. The board will be in continuous session either as a board or in separate committees, until they reach a conclusion which will be arrived at sometime in the month of November, probably near the close. Two committees have been appointed to study the two types of canal, sea-level and lock, and these committees are endeavoring to develop the best canal of each type. When the work shall have been completed the board will be ready to decide which type they prefer."

The War Department has given a contract for 20 three-inch field gun carriages to the American and British Ordinance Company, of Bridgeport, Connecticut, at $3,010 each.

The Interstate Commerce Commission this morning resumed the investigation of the complaints against the railroad and private refrigerating lines, alleging rebates and other improper practices, with W. C. Rowley, Freight Traffic Manager of the Michigan Central, recalled to the stand. It is the intention of the commission to close the case tomorrow, if possible.

It is said that the force at the government printing office is to be greatly reduced.

According to a statement of the Department of Commerce and Labor there were 170 aliens deported from the United States between July 1 and September 30, on the ground that they were public charges. Five departed voluntarily and five persons, whose cases were under consideration, died before action could be taken. Duirng the same period there were three deportations for immoral conduct, seventeen for illegal entry and two because they were convicts.

Fred W. Murphy, of Philadelphia, is in jail in Honduras under a charge of murder. He is not in Nicaragua as reported in press dispatches printed this morning from Philadelphia and was never arrested by the Nicaraguan authorities. Murphy was in the employ of one of the branches of the concern of which Wm. C. Albers is the head. For general bad conduct he was discharged and he then started for Honduras with a native servant as a guide. On the way he murdered this guide.

Mineral Springs in Virginia.

The Geological Survey has just issued a bulletin on the production of mineral waters. It shows that Virginia ranks third in the United States in the number of mineral springs within her boundaries. These are only those which have had waters placed on the market at one time or another. If every mineral spring in Virginia were considered, as every one in New York and Massachusetts are, there is no doubt but that Virginia would rank first. As it is, she is only one behind New York, which has sixty springs of commercial rating, and eleven behind Massachusetts, which has seventy.

Virginia is ahead of all the other States in the showing of the report. To show how incomplete the report gives the actual number of springs which are frequented by Virginia people, it may be mentioned that in the county of Rockingham alone the following springs may be mentioned, which are not in the list: Liberty Springs, Rawley Springs, Union Springs and Sparkling Springs. Every summer each of these places has about one hundred guests.

The value of the Virginia medicinal waters sold in 1904 amounted to $282,000. The number of gallons bottled amounted to 2,117,420.

Virginia News.

Capt. John Trushing, aged 68 years, proprietor of the Washington House in Petersburg, died yesterday after a protracted illness. He was born in Germany.

Miss Lucy Marshall, sister of Mr. J. W. Marshall, a former resident of Clarke county, died at the home of her brother near Summit Point Monday, after a long illness from a complication of diseases.

At St. George's Episcopal Church in Fredericksburg last night Miss Jane Moore Gray, daughter of Mr. and Mrs. J. Bowie Gray, of Travelers' Rest, was married to Mr. John Lyle Hagan, of Danville.

Murder and Suicide.

Harry J. Everett, a carpenter, thirty-four years old, living in Washington, in a jealous rage, last night, shot his wife Margaret twice in the breast over the heart and once in the mouth and then committed suicide by shooting himself in the mouth. The tragedy occurred in the dark hallway of a house at 3042 H street northwest, where the woman had been rooming. Mrs. Everett died in the arms of Policeman McDermott, in a patrol wagon, while being hurried to Georgetown Hospital, and her husband died an hour after being admitted there.

The couple had been married about a year, and had not lived happily together. About four weeks ago the young wife deserted her husband, and, it is said, made known her love for a soldier stationed at Fort Myer. She said she engaged a room at the H street house in order to be near the fort. Everett traced her yesterday to the house, and after four attempts succeeded in gaining admittance, lying in wait for her in a dark corner.

"I have found you, and we are going to go together," he exclaimed. He drew a 32-caliber revolver, and shot her down, and then turned the weapon upon himself. A few minutes later two policemen found the couple gasping in agony, the woman lying on the floor on her back, and the man with his head on her breast and his arms partly around her shoulders. They were covered with blood. An empty revolver lay beside them.

In the pocket of the clothing of the dead man two notes—written on a telegraph blank—were found, the wording of which indicated that he had carefully planned the double shooting. One note read:

"I, Margaret, agree to die with my husband this day. Please bury us together. This is all I ask of the living.

"MARGARET."

The other note was:

"This man and woman is Henry and Margaret Everett. We were married on September 26, 1904. We lived together until September 13, when she deserted me for a soldier named Louis Hilt, a soldier in Troop F, Thirteenth Cavalry. They lived together and broke my heart, as I loved her. She said she would not give him up for me, so this is the consequence for being unfaithful; death I hope. Henry J. Everett, 3418 New Hampshire avenue northwest."

From the contents of the notes the police are of the opinion that Everett decided to kill himself and his wife and arranged them in order that it would appear as though the killing were agreed upon between them.

Everett until a short time ago was employed as a carpenter by the Washington Traction Company. At the time Everett married the woman he killed he was divorced from another whom he had married when he was a young man. He had several children by his first wife, but none by the second.

Smuggled Necklace.

The special agents of the Treasury Department recently succeeded in locating a valuable diamond necklace, which was smuggled into the country, and securing a large amount of customs duties which the owner sought to evade. Some weeks ago the Treasury officials received information that a lady of means living in New York had purchased abroad a necklace, for which she paid $22,000, and had succeeded in getting it through the line of baggage inspectors at New York.

Her name and residence were given to the customs officials, who went promptly to work on the case. On calling at her house it was learned that she had gone to Philadelphia, where they followed her. From Philadelphia she went to Chicago, and from there to Boston; thence to New York again, the custom officers in close pursuit. She was finally found in a New York theater.

When approached the woman said that the diamonds in the necklace she then wore were not genuine, and pleaded with the officers not to publicly disgrace her by making the arrest in the theater, promising to surrender to them the necklace she had procured in Europe if they would call at her residence the following morning.

This arrangement was agreed to, but on the officers going to her house the next morning the woman was not to be found. Her attorney, however, later called at the custom-house, and in her name paid to the officials about $13,000, which represented the duties properly chargeable on the jewels and the added penalty.

Monument for Irving.

Cleveland, O., Oct. 19.—Augustus F. Hartz, manager of the Opera House here and close friend of the late Senator Hanna, has called a meeting by telegraph of the managers of the big theatres in the country to be held in New York October 25. The purpose is to devise means to erect a monument of Sir Henry Irving in Washington. Hartz was a close friend of Irving and is one of the best known theatrical managers in the country.

Today's Telegraphic News

The President in Raleigh.

Raleigh, N. C., Oct. 19.—President Roosevelt reached Raleigh at 9 a. m. His train arrived at a point six miles north of the city at one o'clock in the morning, and was there side-tracked in a cotton field until a few minutes before nine o'clock, when it was pulled into Raleigh. A few country people gathered about the train soon after daylight, and now and then raised a cheer for the President. He appeared on the rear platform of the Signet, his private car, at 8 o'clock, and said "good morning," to the little gathering. He then dis, cussed breakfast with Secretary Loeb-Dr. Rixey, Mr. McIlhenny and Mr. Greenway. As soon as the train reached Raleigh, the Lieutenant Governor and the reception committee came aboad, were introduced and escorted the party to the Capitol; later the President went to the fair grounds, where he made an address. The plan originally made for Raleigh, contemplated a breakfast at the Governor's house, but the death of Governor Glenn's brother necessitated the cancellation of that part of the programme.

Prince Charles Offered Crown.

London, Oct. 19.—A Norwegian dispatch which comes to London through Copenhagen says it is believed that the Crown of Norway has been offered to Prince Charles, of Denmark, and he has accepted.

A dispatch to the Central News from Copenhagen, Denmark, says that during the night important messages were received in the capital from Premier Michelsen, of Norway, at Christiania. All the members of the ministry were at once aroused and a council meeting under the presidency of the Crown Prince, which lasted for two hours, was held at the Amalienborg castle. It is known that the dispatches from Premier Michelsen referred to the candidacy of Prince Charles, of Denmark, for the Norwegian crown, and it is believed a formal tender of the crown to that prince was contained in the message. An answer was sent at the conclusion of the meeting and it is understood that the offer was accepted.

Policeman Stabbed.

New York, Oct. 19.—Policeman John E. Gilligan, of west Forty-seventh street station, was fatally stabbed early today while arresting Emil Schaefer, of Union Hill, N. J., in Forty-second street, near Tenth avenue. Schaefer is a giant in stature and, maddened by liquor, it required four policemen to subdue him. Schaefer came over from New Jersey last night and accumulated a jag which developed aggressive characteristics. Early this morning Schaefer started a row in the West Shore ferry terminal. Gilligan arrested him and he agreed to go to the station house. Near Tenth avenue Schaefer turned on Gilligan and stabbed him twice in the neck. Gilligan fell unconscious while telephoning for assistance. Schaefer was caught and had to be clubbed into submission. He fought all the way to Roosevelt hospital where his condition was critical.

Tartar Revolutionists.

St. Petersburg, Oct. 19.—Advices from Tiflis state that General Takashvili recently summoned a conference of the leaders of Tartars who have been engaged in revolts. He stated to them that the government is willing to forget what has happened in the past and hoped that in the future the Tartars would be obedient. The Tartars made promises to cease their revolts and remain peaceful in the future, but on the day after General Takashivili left the city, Tartars murdered five rich Armenians. The Russian authorities declined to punish the assassins, and this action has created the worst impression. It is believed that the refusal to punish the Tartars is because they are Mussulmans who support the reactionary element in the government, while the Christian Armenians have persistently demanded reforms.

Cossacks and Workingmen Clash.

St Petersburg, Oct. 19.—Bitter feeling prevails today as the result of the clash last night between Cossacks and workingmen, in which two officers, two Cossacks, and two policemen were injured. A meeting of students and workingmen was held at midnight and many inflammatory speeches were made. Revenge upon the Cossacks for the long series of outrages of which they have been the instigators was the keynote of all these speeches. The boldness manifested by the workingmen has alarmed the authorities and they have shown their fear by arranging to have the streets patrolled by the military every night.

Burglars Sentenced.

Dublin, Oct. 19.—Shaw and O'Connor, two burglars, were today sentenced to five and four years, respectively, in the penitentiary for robbing the home on John Mulhall. This was the robbery which was magnified in reports sent to Chicago to make it appear that jewels to the value of $1,000,000, including an ancient Irish crown, had been stolen. The real value of the plunder obtained by the thieves was about $4,000, of which a considerable quantity was recovered.

Serious Affray Over an Apple.

Washington, N. J., Oct. 19.—John R. Leacoon, aged 19, and Henry Houlit, aged 84, paupers at the Warren county almshouse, quarrelled today over the possession of an apple. In the struggle Leacoon produced a knife and slashed Houlit three times in the abdomen. Houlit's condition is serious. Leacoon was arrested and sent to the county jail.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by Gibson & Timberman and W. F. Creighton & Co.

Cheated Death.

Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolfe, of Bear Grove, Iowa, cheated death. He says: "Two years ago I had Kidney Trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and kept them constantly on hand, since, as I find they have no equal.' E. S. Leadbeater and Sons, druggist guarantee them at 50c.

Lid Down Tight.

Washington, D. C., Oct. 19.—President Roosevelt before leaving for his vacation yesterday, shut the lid down tight, and, instead of leaving one Cabinet officer to sit on it temporarily, screwed it down tight for all time by telling every member of his official family that they must not divulge any official secrets in the future. He formulated his directions in a letter containing explicit instructions that they must not hereafter, under any circumstances, utter a syllable relating to any matter under discussion at Cabinet meetings, nor intimate in any manner, however indirect, any action contemplated by the administration. One paragraph of the letter instructs the Cabinet officers not to give information to any newspaper correspondent of an individual paper, and directs that, if any department news is to be made public, it must be furnished first to the press associations. Emphasis is laid upon the fact that Cabinet members must not discuss affairs with correspondents in private, as, for instance. in their homes, or in cases of chance meeting. If anything takes place in the course of their official duties which might by any chance be regarded as of interest to newspaper readers, they must send for the representatives of the press associations and make it known in that way, and no other.

Started For India.

London, Oct. 19.—The Prince and Princess of Wales started today on their long projected trip to India. The party will go overland to Genoa, where they will embark on the battleship Renown, which is due to arrive at Bombay on November 9. The Victoria station, from which the start was made, was filled with distinguished persons who had gathered to say good-bye to the travelers and wish them a pleasant journey. Both the king and queen went to the station. The queen bade the prince and princess an affectionate farewell, kissing both of them repeatedly. No ceremony was observed in the farewell to the royal travelers. The tour of the prince and princess will last for six months, and in that time they will visit all the cities of India. Receptions in their honor will be held at every stopping place. It is estimated that the tour will cost $1,000,000. A retinue of 200 persons will accompany the royal travelers. While traveling in India three trains will be required for the party. One train will be used for the exclusive purpose of handling the baggage of the princess, who is taking with her nearly 200 dresses, and all her jewels which have been insured for $250,000.

The Allegheny Bank.

Pittsburg, Pa., Oct. 19.—National Bank Examiner John Cunningham, assisted by a large force of clerks, this morning, started an investigation of the affairs of the Enterprise National Bank, Allegheny, Pa., whose cashier, T. Lee Clark, committed suicide yesterday, after preliminary steps had been taken toward probing the nature of the securitics that he had accepted for loans. Frederick Gwinner, president of the bank, said that the loans made to State politicians were responsible for the bank and the allegations made that paper to the face value of $700,000 which, it is alleged, the bank cannot recover, is the cause of the insolvency. Neither the directors nor Mr. Cunningham have any idea as to the amount of the loss the bank has sustained.

Charged With Bigamy.

New York, Oct. 19.—Albin W. Pyle, a dry goods salesman, arrested last Friday charged with bigamy, on complaint of District Attorney Brown, of Ocean county, New Jersey, was turned over to officers from Ocean county by Magistrate Finn, today. Pyle, who was employed in a dry goods store on 125th street, this city, and lived at 121 west 129th street, is alleged to have married his first wife, Laura, at Wilmington, Del. in 1902. It is further alleged by the district attorney of Ocean county, that Pyle a few months later, met and married Gertrude Parker, a daughter of a municipal judge at Larkin River, N. J.

Famine in Russia.

Vienna, Oct. 19.—News which comes from Odessa says that the population in the southern part of Russia is in great danger of starvation. The presence of numerous bands of robbers which infest the territory through which supplies must be sent makes it impossible to transport food.

All the troops are confined to the towns of the district and in rural neighborhoods a state of complete anarchy prevails. The burning of estates, robbery and murder continue unchecked, and such outrages are committed with impunity by armed bands.

Sent Wife to Pay for His Poison.

Cincinnati, Oct. 19.—"I want to pay for the poison my husband bought last night," sobbed Mrs. John E. Townsend, in Fieber's pharmacy yesterday. "He told me just before he died he had promised I would pay for it today." Townsend bought 15 cents' worth of carbolic acid and corrosive sublimate in the drug store Tuesday night, saying it was to exterminate roaches and that his wife would pay for it. Going home, he swallowed the poison and then told his wife of the promise, which she so promptly redeemed. Townsend had been out of work and was despondent from illness.

Found Hanging to a Tree.

Cleveland, O., Oct. 19.—The body of Emil Steiger, a saloonkeeper, prominent in the West Side, was found at West Berea, this morning, hanging from a tree. A wire had been fastened to his neck. There were bad wounds on the head, caused by a blunt instrument.

Letter to Wm. L. Clarke.

Alexandria, Va.

Dear Sir: A great many people will see your house in the course of the next ten years We want it to show what Devoe lead-and-zinc will do. We should like you to paint it, and then not paint it again for ten years—unless it needs repainting.

We'd like such a sample as that in every town in the country—with a notice about it in the local paper: "Mr. Clarke's house was painted ten years ago with Devoe lead-and-zinc, and has never been repainted. The color is not so bright as it was; but the paint is as perfect a coat as ever, to keep out water."

A good lead-and-oil job is expected to last three years; it is a good one that lasts three years; it generally does not. Devoe lead-and zinc lasts twice as long, if not:—

"If you have any fault to find with this paint, either now in putting it on, or hereafter in the wear, tell your dealer about it.

"We autorize him to do what is right at our expense."

We want your house as a sample, and you as a witness.

Will Fight For Children.

Wooster, O., Oct. 19.—Mrs. Taggart's attorney were granted permission last night to carry the fight for the possession of the children to the Circuit Court. Mrs. Taggart had refused to prepare Culver for the journey to Columbus with the captain, and before the sheriff could be sent for the boy her attorneys appealed to the higher court. Judge Eason refused to grant the appeal at first, but finally said he would yield provided a good bond was furnished. During the argument Mr. Shields, of Chicago, Mrs. Taggart's brother-in-law, shook his umbrella in the face of Attorney Wertz, counsel for Captain Taggart, and shouted "You call me a liar and I'll break your head."

New York Politics.

New York, Oct. 19.—Tonight will see the municipal campaign in New York in full swing. William M. Ivins, the republican nominee for mayor, has been making speeches for several days. William R. Hearst, nominee of the municipal ownership party, likewise has been busy seeking votes on the platform and last night saw William T. Jerome's formal entry into the contest in the independent race he is making for re-election as District Attorney. Tonight Mayor McClellan and his comrades on the democratic ticket will open the Tammany campaign.

Duel.

Agen, France, Oct. 19.—A duel with swords was fought in the Profecture grounds this morning between Deputy Dauzon, president of the General Council of the Department of Lot-et-Garonne, and M. Darosa, a journalist, who is the author of a personal article reflecting on M. Dauzon. In the third round Darcza received a deep wound in the forearm, and this ended the duel.

Irving's Ashes.

London, Oct. 19.—The casket containing the ashes of Sir Henry Irving today was placed on public view, lying in state in the stately drawing rooms of the mansion of Baroness Burdett Coutts, on Stratton street, and an endless procession of mourners filed past the bier to get a gimpse of the coffin. The casket was surrounded by a wealth of floral offerings which had been sent by friends and admirers of the great actor. Flanking these was an oil painting of Irving as Hamlet, with a chaplet of laurel. The pall was made entirely of laurel leaves, which were supplied by Irving's son, H. B. Irving. All ranks were represented in the long line of mourners that came to pay this last tribute of respect to the memory of the man they loved and admired. The floral offerings came from all parts of the civilized world.

Cunliffe Captured.

Bridgeport, Conn., Oct. 19—Edward George Cunliffe, for whom scores of Pinkerton detectives have been touring the country, was arrested in this city by Superintendent D. C. Thornhill and Detective W. S. Minister, of the Pinkerton detective agency, in front of the Tremont Hotel in Middle street, at 10 o'clock this morning. He has been in Bridgeport since Tuesday, October 10, the day after his crime, the theft of $101,000 from the Adams Express Company, in Pittsburg. He admits his guilt, saying that he was seized with a sudden impulse and took the money out of the office under his arm, bidding his fellow employes good evening. Cunliffe has been boarding at a cheap hotel during his stay here, and has been haunting drinking resorts. Only about $300 was found in his possession.

Report Denied.

Berlin, Oct. 19.—The German Foreign Office denies the reports which have been circulated to the effect that Baron Speck von Sternburg will not return to Washington as Germany's Ambassador on account of the disease which has affected his ear. The statement by the Foreign Office is that he will shortly resume his duties and will continue the negotiations affecting the commercial relations of Germany and the United States. The disease is no worse and there is no prospect of his quitting the post which he has filled with conspicuous success.

New York Stock Market.

New York, Oct. 19—After the moderate declines at the opening, the market hardened and before the end of the first hour some sharp advances were made. Commission houses continued to complain of a lack of orders and price movements as a result were generally narrow and unimportant in the usually active stocks.

Heading for Venezuela.

The French armored cruiser Desaix, understood to be bound for Venezuelan waters, did not put into Brest after leaving Cherbourg, October 16, as it was announced she would do, but passed the Island of Ushant heading direct for the French Antilles, where she will join the cruisers Troude and Jurien de la Graviere For the present the cruisers Lavoisier and Chasseloup-Laubat will be held at Brest, as the situation may not require their presence in West Indian waters.

The officials in Paris say that the published report that the French squadron intends either to bombard some coast point, such as Cumana or Barcelona, or else seize Venezuelan shipping, is an exaggeration, as the only decision arrived at is to have ships in readiness, the nature of the demonstration being determined on later if the attitude of Venezuela requires a resort to force.

At the same time the officials are sincerely anxious to avoid the necessity of adopting force. In any event the United States will be fully advised in advance concerning the nature of any coercive measures.

A dispatch from Cherbourg reports that in naval circles there it is expected that marines from the Desaix will be landed in Venezuela

Judge Lewis and Miscegenation Law

In a published card in Richmond yesterday evening, George J. Hundley declares that it is true that Judge Lewis favored miscegenation in Virginia in the early days, sustaining the charge made by Congressman William A. Jones in a recent speech at Fredericksburg.

Mr. Hundley states that his mind is quite clear about the incident. He says that he himself propounded the question to Judge Lewis as to whether he favored a law prohibiting the intermarriage of the races, and that Judge Lewis answered that he was opposed to such a law. Judge Lewis, he says, stated positively, that he believed in allowing all persons, black and white, to marry whom they please.

Attorney James T. Rogers and Robert Wells, of Hyattsville, and Edmond Burke, of Alexandria, represent the defendant, and State's Attorney Magruder is being assisted by Attorney T. Van Clagett in the prosecution. The preliminaries to the trial were soon completed and the taking of testimony was begun. Detective Baur of Washington, Thomas M. Mohler and Allen W. Mallery were examined prior to the noon recess. The attorneys for the defense put all the witnesses through a most withering fire of questions during the cross-examination. The examination of witnesses was begun again immediately after the recess.

Jamestown's Keel Laid.

The keel of the new side-wheel steamer Jamestown, which the Norfolk and Washington Steamboat Company have contracted with the Newport News Shipbuilding Company to build, has been laid at the shipyard and the work on the vessel will be pushed to completion as rapidly as possible. The material for the steamer is all on the ground at the yard and there will be no delay in the construction of the vessel, which will be ready for launching about the middle of January and ready for service about May 1 next year. As has been stated, the Jamestown is to be 250 feet long and will be of steel construction throughout, making her absolutely fireproof. She is to be elegantly fitted out and will be one of the handsomest vessels ever on the Potomac. The Jamestown is to be used for excursion purposes on the Potomac during the next summer.

Dismissed with Reprimand.

Three small white boys were brought before the Police Court this morning by Officer Nicholson charged with damaging the fire escape on the Peabody school building. From the evidence in the case it appeared that the youngsters had run up and down on the escape, causing the lower part of the same to rise and fall, and in doing so had broken three of the steps. The boys, however, denied the charge that they had broken any part of the escape. It was shown that the schools in the building had been annoyed by the conduct of the youngsters. Justice Caton dismissed the accused with an admonition, and should anyone be apprehended in future charged with similar offenses fines will be assessed.

Improvements.

Improvements are being made in front of Trinity M. E. Church on Washington street. A fine granolithic pavement, 87 feet long, is to be constructed, running from the alley on the south of the church toward King street, to the north line of the sexton's house. The pavement will be two feet wider than formerly. The maple trees which had stood in front of the church and weathered the storms of years, have been removed to make place for the improvements.

Richards' Trial.

In the trial at Floyd Court House of John Richards, the University of Virginia law student, charged with the murder of Maurice Francis, of Roanoke, who was shot to death in the public highway while on his way to visit his fiancee two months ago, Judge Moomaw yesterday ruled to allow the evidence of J. M. Connor, who was the first person to reach Francis after he had been shot and to whom he made a dying declaration. The declaration was heard by Miss Grace Link, Francis' fiancee, and was, "Jealousy is an awful thing, Richards." This was the reply to the query as to who had shot him. Connor underwent the most rigid cross-examination, but never once contradicted himself.

Several witnesses testified to having seen John Richards wearing a false mustache and roaming about the vicinity in which the crime was committed a few days prior to the killing.

Miss Grace Link, the young woman about whom the trouble arose, was put on the stand yesterday. It was reported that she was in a state of collapse, but later in the day she rallied, and when called appeared in court and gave her testimony in a clear and calm manner. She stated that she was engaged to Francis, and that she had had repeated proposals from Richards, to which she gave no answer. She had been with Francis after he had been shot, and corroborated the testimony of Connor as to the dying statement.

Cross-examination failed to shake her evidence, and she stood the ordeal bravely.

Killed by Tornado.

A tornado struck the village of Sorento, Ill., thirty-two miles northeast of St. Louis, Tuesday night, killing eight persons, injuring thirty-five others, of whom three will probably die, and doing a great amount of damage to property. Forty houses were blown to atoms or carried far from their foundations. A complete swath was cut through the town. Everything in the track of the tornado was reduced to debris or blown away.

Ten miles north of Alton a Chicago, Peoria and St. Louis freight train struck a washout and plunged down an embankment into Branch creek, containing six feet of water. Two cars contained cattle and horses, and only a few of the animals escaped death. Several tramps seen to swing into the train previously are believed to have perished.

In a tornado which passed over the country one mile west of Mannford, Okla., late Tuesday night, two children of E. R. Anderson were killed. Eight persons were seriously injured.

Barber, one time president of the National Asphalt Company, of Washington, testified yesterday in the case of the United States of Venezuela against the New York and Bermudez Asphalt Company that the company contributed materially to the revolution organized by General Manuel A. William J. Bryan yesterday addressed an audience of about 1,000 persons in Tokio, with Count Okuma, the former Foreign Minister and leader of the progressive party, in the chair. His simple style and clear pronunciation made his speech, which lasted 40 minutes, intelligible even to the younger students and called forth appreciative remarks. Later Mr. Bryan lunched with Count Okuma. The municipality of Tokio has invited Mr. Bryan to attend a public reception, but his time there will not permit him to accept the invitation.

The remains of the three Italians killed at Paw Paw, W. Va., on Saturday afternoon last in the pistol duel with John Price, of Paw Paw, were buried yesterday in St. Patrick's Cemetery, Cumberland, Md. A local Italian interpreter states that two of the men killed were members of the "Black Hand;" that the society will first employ counsel to assist in the prosecution of Price, and make every effort to secure a first-degree murder verdict, and if Price should be acquitted or let off on a slight sentence, other and more drastic measures will be taken by the society against Price.

Charges of conspiracy among army officers made by Oberlin M. Carter, who was convicted of embezzling $3,000,000 from the government, enlivened the proceedings before Special Examiner Wyman at Chicago yesterday. In reply to questions by Assistant United States Attorney General Erwin, Carter asserted that the finding of the court-martial which declared Carter guilty was the result of a conspiracy among the officers constituting the court-martial. "I was condemned and sentenced to prison on secret testimony at a hearing where neither myself nor my attorney was allowed to be present," said Carter.

Pepys and the Cook Maid.

There was a servant problem in the seventeenth century, but it was solved in a rough and ready fashion. Pepys records on April 12, 1667, that he came home, "saw my door and hatch open, left so by Luce, our cook maid, which so vexed me that I did give her a kick in our entry and offered a blow at her."

Two days afterward (Lord's day) Pepys writes this: "Took out my wife and the two Mercers and two of our maids, Barker and Jane, and over the water to the Jamaica house, where I never was before, and there the girls did run for wagers over the bowling green, and there with much pleasure spent little, and so home." Luce was not there, but the other maids were treated as members of the family.

Small Coins.

The natives of the Malay peninsula have in use the very smallest current coin in the world. It is a sort of wafer made from the resinous juice of a tree and is worth about one ten-thousandth of a penny. The smallest metal coin in circulation at the present day is the Portuguese three reis piece, worth twelve one-hundredths of a penny. The smallest coin circulating officially in any part of the British empire is the five millesima piece of Gibraltar, worth about half a farthing.

Saved His Own Name.

After a recent bank holiday in London one of the police courts the next morning had among its "drunk and disorderly" prisoners a man who said he was William Shakespeare. "Is that your real name," asked the judge, "or just your nom de guerre?" "Well, your honor," replied the prisoner, "it is true that I was not christened William Shakespeare, but, you see, I hated to bring dishonor and disgrace upon a respected name."

Wages in Germany.

American workingmen will read with deep interest an abstract of a report recently made by the Statistical Bureau of Berlin, the leading city of Germany, showing the wages paid German workingmen in that city. The scale of wages is, of course, indicative of wages paid generally throughout Germany.

The workmen engaged in building operations receive the highest wages, the masons receiving, per hour, 16.07 cents, and for extra hours 18.06 to 19.06 cents. If the work is piecework the pay is, per week, from $11.42 to $13.00, or from $1.90 to $2.14 per day.

The plasterers receive $1 90 per day, and from $2.38 to $2.86 if doing piecework, and the carriers a like amount.

The stucco worker receives weekly wages of $10 to $12.14; i. e., from 19.8 to 23 8 cents per hour, and for extra work or overtime he receives 24.8 to 30.5 cents per hour.

The tiler is not paid as well, receiving per week, $8.68 to $9.

The painter receives from 11.9 cents to 13.09 cents per hour, which is about $7.07 per week.

The tile stove-setter receives, weekly, $11.42 if working on time, and $14.28 if doing piecework.

The income of the head waiter at restaurants is said to be from $599 76 to $742.56 per year, and for those in the hotels even as much as $1,078.14 per year.

The average income of the other waiters is $374.85 per year. The hotel cooks receive, annually, from $742.56 to $1,599.36, the average being $1,028.16.

The cloth weavers, working from 10 to 11 hours each day, earn only about $2.14 to $2.86, and as they are often out of work, they earn only from $107.10 to $178.50 per year.

The weavers in factories receive, per week, working 10 hours per day, $3.57 to $5, and in the case of piecework, $4.28 to $5.71.

The weavers at home, working 12 hours each day, can earns only, per week, from $1.43 to $4.28. The locksmith, mechanic and saddler earn from $230 to $297.50; the coppersmith, watchmaker and butcher from $297.50 to $357, and the brewers, typesetters and lithographers from $357 to $416.50 per year.

Carried Severed Hand to the Doctor.

Mercer, Pa., Oct. 19.—William Findlay, a faam hand employed by Gus Burns, of Lackawannock township, Mercer county, displayed remarkable nerve Tuesday, when, after having his left hand cut off in a corncutting machine, he picked up the severed member and walked a mile to a doctor's office. He stopped the flow of blood by tying a piece of twine about his wrist, pulling the knots with his teeth.
